JERRY ANGELO

“I owe my career to Jerry Angelo. He took a young coach who was nowhere close to being ready to scout in the NFL and turned him into a general manager. Jerry is known for his integrity and not once did he compromise this trait working in such a competitive league. Jerry has the unique ability to connect with all individuals and get them to buy into his vision with both conviction and empathy. I was always impressed with the way he could make the complex appear simple, especially when it came to building a team and evaluating players. The program we have built in Indianapolis has Jerry Angelo’s fingerprints all over it. I have worked for some special people in my career, but I would put Jerry at the top of the list.”

- Chris Ballard
